

**The Pro's Choice for Powerful and
Safe Odor Elimination**

THE ODOROX HG

BOSS

PATENTED • SCIENTIFICALLY CONFIRMED • SAFETY TESTED • FIELD PROVEN

» BOSS

Odorox® Boss™ machine is ideal for disaster restoration contractors treating moderate to severe odors in medium-sized areas. It is a versatile unit that can be used to eliminate a wide array of odors and VOCs. It uses 2 ultraviolet optics, an adjustable built-in fan, and operates using 1.9 amps.

The fan can be turned to low to deodorize small areas such as cars, RVs, boats, bedrooms, or offices. This setting is also effective for treating contents onsite. The fan can be turned to high to treat larger areas such as basements, homes, and businesses.

The typical coverage area for this machine is 750 to 1,000 sq. ft., depending upon the strength of the odor and the room layout. The coverage area may be 1,500 to 2,000 sq. ft. for lighter odors and open floorplans.

SPECIFICATIONS

Dimensions	12.1" x 18.5" x 25" (307mm x 470mm x 635mm)
Weight	35lbs (16kg)
Power	120V @ 1.9 Amps
Control	Speed Control / Selector Switch
Meter	1/10 quartz hour meter
Mobility	Handle / Rubber feet. Optional Wheeled cart
Finish	Black powder coat
Noise Level	<55 dBA
Number of Optics	2
Air inlet / Outlet	Louvered panel/6" (152.4mm) Rectangle
Fans & Rating	One 630 CFM
Filter	One 9" x 18" x 1" (228.6mm x 457.2mm x25.4mm)
Certification	ETL Canada/US - CSA & UL Standards Meet or Exceed EPA - OSHA Standard & Guidelines Residual O ³ /Non-accumulative
